Art Unit: 3671

DETAILED ACTION

Election/Restrictions

This application contains claims directed to the following patentably distinct species of the claimed invention:

Species I, Figs. 1-4;

Species II, Fig. 5;

Species III, Fig. 6;

Species IV, Figs. 7 and 8;

Species V, Figs. 9 and 10.

This application further contains claims directed to the following subspecies:

If Species I is selected, then the following subspecies are present:

SubSpecies A, the support for the shovel of Fig. 1;

SubSpecies B, the support for the shovel of Fig. 4.

If Species V is selected, then the following subspecies are present:

SubSpecies C, the bracket of Fig. 9;

SubSpecies D, the bracket of Fig. 10.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable.

Application/Control Number: 10/659,107

Art Unit: 3671

If Applicant selects Species, I, Applicant must also elect a single disclosed subspecies for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable.

If Applicant selects Species V, Applicant must also elect a single disclosed subspecies for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable.

Currently, no claims are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added.

If Applicant elects Species I, Applicant is advised that a reply to this requirement must include an identification of the subspecies that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added.

If Applicant elects Species V, Applicant is advised that a reply to this requirement must include an identification of the subspecies that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added.

An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after

Application/Control Number: 10/659,107

Art Unit: 3671

the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species or subspecies are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species or subspecies to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christopher J. Novosad whose telephone number is 571-272-6993. The examiner can normally be reached on Monday-Thursday 5:30am-4:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Thomas Will can be reached at 571-272-6998. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
